# ICT & Computer Science
# Year 6 Transition

| Meet the Department |
|---|

I am Miss Bamforth, I am the Curriculum Leader for ICT and Computer Science
My favourite topic in ICT/Computer Science is how binary is represented in computers
I always try to bring my sense of humour into the class and make our lessons as enjoyable as possible
I look forward to meeting you in September

You will have already heard from me already as I look after your year, however when I am not doing my year duties, I teach ICT & Computer Science
I have taught ICT & Computer Science for nearly 20 Years and fully enjoy the subject.
I am fascinated how far technology has developed and can only imagine where it will go to next
I love teaching KS3 ICT as I love to him you learn new things – See you in September

## Task 1:

**Try some of these quizzes -** https://www.proprofs.com/quiz-school/topic/ict

**Try some of these websites:**

https://lightbot.com/flash.html

https://scratch.mit.edu/

https://code.org/learn

## Task 2:

### TRY AND CHALLENGE YOURSELF

Design a character for an animation game, this must include why you have chosen the character and what is the role of the character in the game.

Create a multipage comic strip, this must include genres of comic strip (e.g. humorous, action, sci-fi, super hero), the target audience (e.g. young children, teenagers, adults), country of origin (e.g. UK, America, Japan), the history of the comic strip.

Draw a storyboard to include: panel layout, characters, the storyline (e.g. background scenes, characters, shapes, text, fonts).

Design a logo merging text and an image which is related to cyber-bullying.

Produce a poster showing how you can protect yourself from a range of online dangers such as a person pretending to be you on social media.

A Story Board

**BRONZE**: includes drawn images!

**SILVER**: Includes a description!

**GOLD**: Includes labelling!
